Bachelors in Computer Science	2023 - 2027
GOVT DEGREE SCIENCE AND COMMERCE COLLEGE	Karachi, Pakistan
Pre-Engineering	2020 - 2022

Projects & Technical Experience

Projects & Technical Experience Karachi, Pakistan

Built responsive, user-friendly web applications with dynamic functionality, focused on clean component architecture, performance optimization, and seamless UX across devices.

MERN Stack Developer May 2026 – Present

Vendor Booking Platform CODERATORY

- Built vendor onboarding and multi-step profile setup screens in React Native (Expo) with TypeScript, custom hooks, and REST API integration, following strict ESLint/Prettier code quality standards enforced across the monorepo.
- Delivered create-listing and real-time listing update features with optimistic UI and live data sync, using a plug-and-play architecture where each feature is fully self-contained with its own components, hooks, and types.

Front End Developer Feb 2026 – April 2026

Multi-User Music Player SYNCCAI

- Developed a responsive, full-featured music player UI using React + Vite, structuring reusable components and custom hooks to consume the Spotify Web API with PKCE OAuth 2.0 authentication
- Designed multi-user room UI with real-time synchronized playback state across clients, managed via React Context and custom hooks, applicable to OTT/streaming interfaces.
- Optimized in-browser playback experience via the Spotify Web Playback SDK, resolving stale closure bugs and device-transfer edge cases to ensure smooth real-time UI updates.

Extracurricular & Volunteer Experience

AMAL ACADEMY Karachi, Pakistan

Education Startup funded by Stanford University.

Career-Prep Fellow: August -2025 and Present

- Strengthened teamwork skills by actively contributing in project work of braille implementation on medicines. Held meetings with regulatory bodies on the significance of braille on medicines.
